

Greetings for the day!!!

Waves Research opens a platform where we offer our quality research services in commodity to financial brokers, sub brokers, AMCs & Institutions.

Several years of experience & technical analysis expertise in markets helped us reach where we found commodities falling absolutely under our pre-defined forecasted levels.

To provide you a glimpse of our research we present -

Gold Update:

On 5th July 13, we published MCX Gold time cycle update where accurately & precisely anticipated happened as we mentioned in our last gold update.
