

# TECHNICAL ANALYSIS

# About Us

Waves Research & Advisory Pvt Ltd. is an independent research & trading firm in India. We provide in-depth research on varied asset class like Equities, Commodities, and Currencies. Our core focus at Waves Research & Advisory is trading and Fund Management; identifying market inefficiencies for achieving above normal returns. We use advanced technical tools like Elliott Wave Principal, Time Cycles, and Fibonacci Projection along with Classical Technical Analysis tools. Our team is comprised of hard core traders who are qualified CMT's and CFA's and are constantly tracking not only India Markets but how markets across the globe are developing.

We also believe in Educating and Sharing of our unique combination of knowledge through different Educational Services provided by us.

# Speaker Profile

Vishal Dalvi is a B.E, MBA, CMT and is the Founder at Waves Research & Advisory Pvt Ltd. He is also an Affiliate member of Chartered Financial Analyst Institute and is a Level II candidate.

Before his entrepreneurial venture he worked as a Head Research at Commtrendz Risk Management Services, heading the Trading and advisory for its Clients in Commodities & Currency segment. There after he also worked with ANAND RATHI, in their Commodities & FOREX Advisory department. Prior to his MBA, Vishal worked with Infosys Technologies Ltd. for two years as a software engineer.

Vishal has been a guest speaker at the various forums and seminars teaching and creating awareness about the subject of Technical Analysis. He also conducts courses on Technical Analysis in several MBA and BFM colleges under Mumbai University.

He is a frequent speaker on CNBC channel for his views on Commodities and Currencies. He is an active trader and uses advanced tools like Elliott Wave, Time Cycles along with classical technical tools to trade in various Markets in all asset classes including Equities, Commodities and Currencies.
